2026 EU REACH Compliance Statement

Regulation (EC) No. 1907/2006, known as REACH (Registration, Evaluation, Authorization, and Restriction of Chemicals), with amendments up to and including the most current amendments, seeks to protect human health and the environment through the regulation of chemicals.

According to Article 33 (1) of REACH, suppliers must inform recipients of the presence of Substances of Very High Concern (SVHCs) in their articles if the concentration exceeds 0.1% by weight (w/w). The information provided must include, at a minimum, the name of the SVHC and enough details to ensure the safe use of the article.

Substances of Very High Concern (SVHC) – Annex XIV

Delphon Industries, LLC has reviewed the contents of its Gel-Pak, TouchMark and UltraTape products to determine if any of the 253 SVHC substances on the SVHC Candidate List as of February 4, 2026, are present. Based on our engineering evaluation and supplier declarations received to date, we have determined to the best of our knowledge that SVHC's are not present above 0.1% w/w in any article.

Annex XVII Restrictions

Delphon Industries, LLC has determined that its Gel-Pak, TouchMark and UltraTape products are compliant with Annex XVII restrictions. We will continue to monitor the new SVHC additions to Annex XVII and update our Compliance Statement as appropriate.

Sincerely,

José S. Romero
